

ARTICOLE STUDIOS

FOAM CARVING

MASTERCLASS

Learn how to carve a foam sculpture.

Learn enlargement, setting out, hot wiring and finishing techniques.

Don't know where to start?

Learn the secrets in one weekend's Masterclass.

Join Us

You will be working with Steve and Barbara Cole at Articole Studios. You will learn the techniques that have taken years to develop and have been used in many areas including films, exhibitions, events and retail establishments.

What you need to know!

You do not need any previous experience. We will take you step by step through every process.

We have successfully trained people from all walks of life - sculptors, model makers, art students, small business owners, etc.

A Carving to take away with you

By the end of the weekend you will have made a complete foam sculpture and will have skinned and finished it.

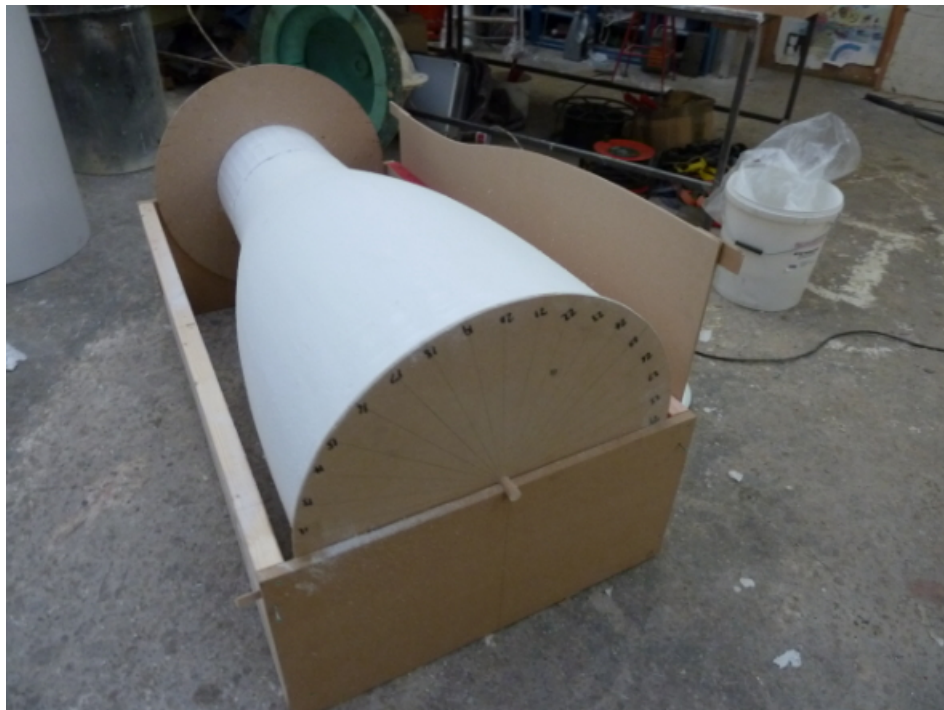

You can take this with you when you leave and use it to refer to the methods you have learnt.

You will get a printed and bound set of course notes with pictures, supplier details, mix ratios plus a CD Rom with pictures of every stage for added reference when you get home.

Health & Safety

We provide paper boiler suits, eye protection, rubber gloves and masks for any fumes.

We teach all aspects of health and safety when using the materials

Articole Studios

Set in the grounds of Radwell Mill Country Estate in North Hertfordshire just 40 miles north of London, Article Studios produces props and moulds for entertainment & display industries as well as organizations, large & small businesses, sculptors & artists.

Steve Cole, Managing Director of Article, has over 30 years experience in this industry and Barbara Cole is a qualified teacher and has produced props for Article studios.

Following the success of their mouldmaking masterclass they have now decided to teach these carving skills to ensure this fascinating trade can be enjoyed by future sculptors & craftspeople.
