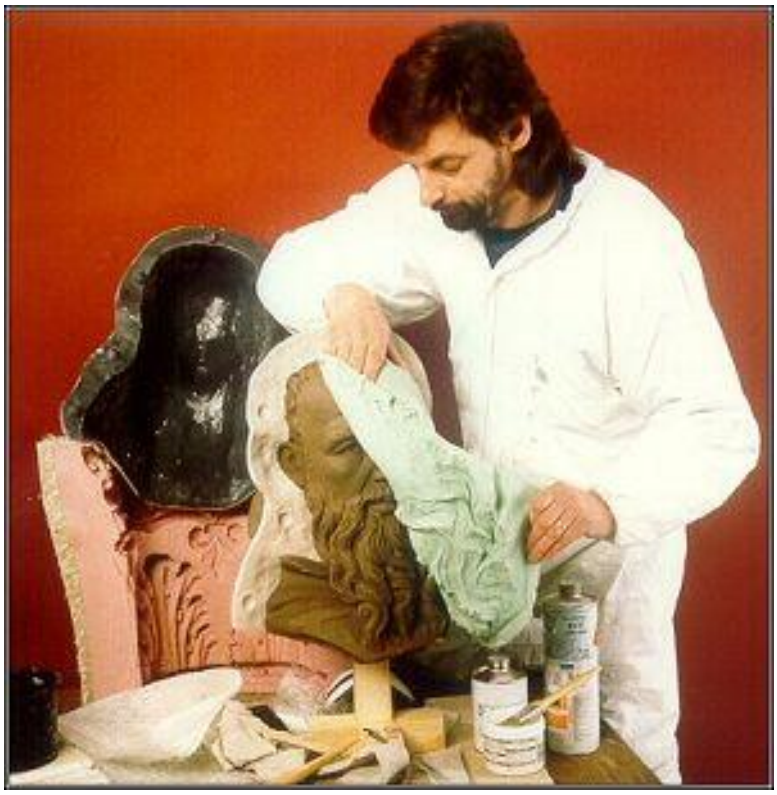
Articole Studios
Mould making & Resin Casting Masterclass

Learn how to make a mould using silicone rubber & fiberglass

Learn resin casting & working with cold cast metals

Don’t know where to start?

Learn the secrets of this rare trade in one weekend’s Masterclass.



Join Us

You will be working with Steve Cole at Articole Studios for an insight into the secrets of mould making and casting.
You will learn the techniques of producing moulds, a skill which has taken years to develop.

What you need to know!

You do not need any previous experience. We will take you, step by step through every process.
We have successfully trained people from all walks of life -
sculptors, model makers, art students, kit car builders, small business owners etc etc

A Mould to take away with you

By the end of the weekend you will have made a complete mould. This mould will be made of silicone rubber with a fiberglass backing case.
You can take this with you when you leave and use it to make test casts from and refer to the methods you have learnt
You will get a printed and bound set of course notes with pictures, supplier details, mix ratios plus a CD Rom with pictures of every stage of the mould making process for added reference when you get home.

Health & Safety

We provide paper boiler suits, eye protection, rubber gloves and masks for fumes. We teach all aspects of health and safety when using these materials

Delegates making moulds

Articole Studios

Set in the grounds of Radwell Mill Country Estate in North Hertfordshire just 40 miles north of London
Articole Studios produces props and moulds for the entertainment & display business as well as organizations, large & small businesses, sculptors & artists

Steve Cole, Managing Director of Articole, has over 30 years experience in this rapidly declining industry. He has now decided to teach his skills to ensure this fascinating and rare trade can be enjoyed by future sculptors & craftspeople
